ACTIVE LISTING INVENTORY

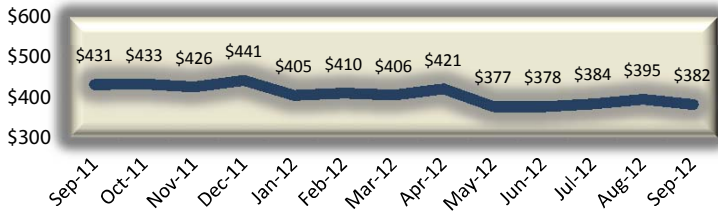

ABSORPTION RATE

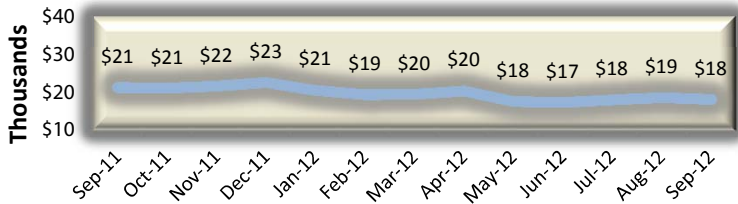

Active listing inventory ends the week at **36 homes for sale** with **0 new listings** and **2 pending sales**. Absorption was **6%** for the week. The absorption rate represents the percentage of active listings that are pended each week.

COST PER HOME SQUARE FOOT

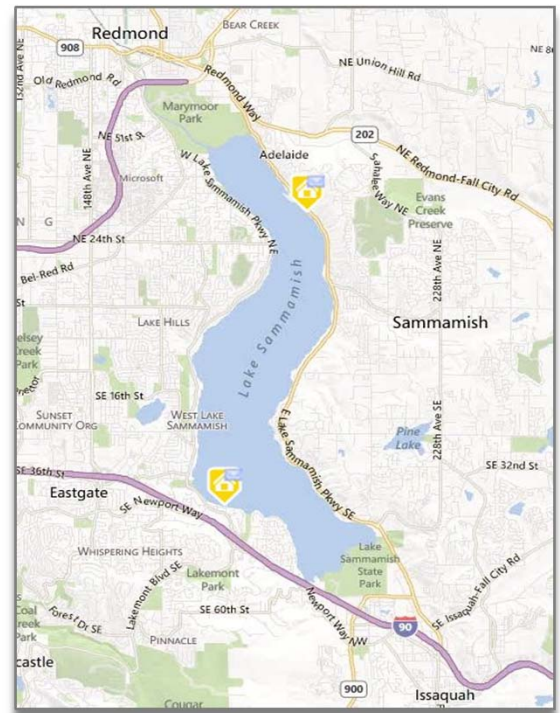

The average cost per square foot was **\$382** for the month of **September 2012** as a rolling average for the preceding 12 months. Quality of construction, age, and functionality determine the value per square foot of an individual property.

COST PER WATERFRONT FOOT

The average cost per waterfront foot was **\$18,185** for the month of **September 2012** as a rolling average for the preceding 12 months. Location, exposure, sunlight and access are many of the variables that effect value.
